

# Northern Michigan Regional Entity (NMRE) Providers List

The NMRE oversees mental health and substance use disorder services for the residents of 21 counties in the Northern Lower Peninsula. We work with the five Community Mental Health (CMH) organizations in our region, as well as more than 400 independent providers.

A **provider** is any individual, network, or organization with whom we contract to work directly with our clients. Although many of our providers are here in Northern Michigan, we contract with organizations across the state in order to serve our communities.

If there is a website listed under provider's name, that is a link to their website where you can learn more about the provider. Clicking on the underlined website name will open the website in your browser.

If there are known physical accessibility concerns at a provider facility, that location will be identified under the Accessibility Issues column.

The providers listed below have been organized by the services that they offer. Some providers offer more than one type of service, or have more than one physical address, and may appear in multiple locations on this list.

To the right you will find a list of each service category. If you are on a computer, clicking on the name of a service will take you directly to that place in the list. If you are viewing this on a computer and you want to search for a specific provider name, or providers in a certain County, press **[Ctrl + F]** on your keyboard for a search menu.

\*The "CCT" column indicates whether or not a provider has a staff member that has received Cultural Competency Training.
